

CREEKMOOR

GOLF CART/HANDICAP FLAG POLICY

- **Members requesting handicap access privileges will need to provide written verification of the condition requiring such access from a medical provider to be kept on file at Creekmoor.**
- **Two players in the same group requiring handicap access must share the handicap flagged cart.**
- **We will ask players using the handicap access to behave as if they don't have a flag whenever possible. For example – if your ball lies in the rough or fairway in near proximity where walking to and fro would not cause hardship, please walk.**
- **Carts should enter the fairway at 90 degrees from the cart path where the ball lies, then remain in the fairway and return to the cart path at 90 degrees as soon as possible. We want to minimize crossing through the rough from and to the cart paths to once each way per hole.**
- **Normal cart path rules on par threes and hole #11 still apply.**
- **Handicap flags will not be allowed when weather/course conditions prohibit their use.**

THIS POLICY IS INTENDED FOR THOSE PEOPLE WHO ARE TRULY IMPACTED BY THE CART PATH ONLY STATUS.

IT IS SUBJECT TO REVIEW OR REVERSAL IF ABUSED OR IF THE COURSE DOES NOT TOLERATE THE CART TRAFFIC.
